## A LETTER FROM THE CHIEF EXECUTIVE OFFICER

Who knew that the dog days of summer typically begins on July 3? Dog days are the hottest days and known as a historical Roman reference to Sirius, the brightest star in the constellation. Sirius was known as the "Dog Star." You're welcome.

What does that have to do with helping children heal? Well, nothing. But I was thinking about good news in the midst of "dog days," which we are probably all feeling right about now. I don't just have good news; I have spectacular news!

One, we are reaching more hurting families *everyday* to put their children on a path of healing. Two, we are expanding our physical presence in San Antonio with a new office and new partnerships. I can't wait to share the details very soon!

We are grateful for your support to interrupt trauma's impact and help children heal, making us a stronger, healthier community.

The other very good news is that we thankfully have freedom today! Enjoy your independence and celebration with loved ones!

Privileged to serve,

Jenni Lord

## Community Partners

We are delighted to announce that we received a \$75,000 grant award from Kronkosky Charitable Foundation. With this grant more families and children in distress will have access to the critical services they need to heal from trauma!

Thank you **Kronkosky Charitable Foundation** for your generosity and for your support in Chosen's mission!

One-on-One time can be done with any age child, including teenagers, to increase connection. Some examples of connecting activities with teens include listening to music together, watching a TV show and talking about it, doing pedicures, taking walks, and playing basketball.
