

A LETTER FROM THE CHIEF EXECUTIVE OFFICER

My friends,

I am absolutely thrilled to officially share with you that Angela White has joined our team as Chief Operating Officer after a six month search. Angela brings both personal and professional experience that are uniquely fitted to further Chosen's mission. Angela spent time in foster care in the UK and as an adopted child, knows first-hand the pain and struggles that our children and families experience. She spent the past several years at a large nonprofit agency tackling substance abuse issues, and is currently completing an MBA in leadership and sustainability. Angela's role will be essential in expanding our operations, integrating core business functions, and overseeing the day to day operations.

As the child welfare landscape shifts with significant federal legislation changes and the privatization of foster care in our region, Angela's experience in behavioral health will be invaluable as we continue to adapt. But our core focus remains the same: healing children *by* strengthening their families.

Celebrate this monumental milestone of Angela joining the team! We think of you as part of our team too – your partnership is vital to advancing our mission to help children heal.

Best regards,

Jenni Lord

WELCOME

Angela White

"I feel humbled to have been asked to join Chosen Care since I was a foster and adopted child and was placed by God in another place of deep healing for me as traumatized children are often misunderstood."

– Angela
