

FAMILIES & CHILDREN NEED OUR SERVICES

MORE THAN EVER.
& WE NEED YOUR HELP

CH^oSEN™ | STRENGTHENING FAMILIES
HELPING CHILDREN HEAL FROM TRAUMA

Right now, we urgently need your help as we respond to the influx of emergency needs related to COVID-19.

DONATE

Since trauma manifests as behavioral issues, there is a major need to prevent families from breaking down. Because we have used telehealth for years, there has been NO interruption to services. Our team is working round the clock providing critical help to ensure children have PERMANENCY.

Unfortunately, we are already seeing an increase of calls and needs from hurting children and families.

In less than 72 hours, our amazing team has added **NEW** virtual resources for families in need of help during the **COVID-19 pandemic.**

Parent to Parent support groups

We are offering **live support groups** each week with a ten minute time of trauma-informed education. The remainder of the hour will be to ask questions of our seasoned staff and to provide support to each other, parent to parent.

Coffee With Chosen

We share encouragement and tips through videos to help parent children from hard places in the midst of a hard time for everyone.

*Join us on social media or **sign up** to have these videos delivered to your email!*

Please support the nonprofits who are helping us all

Events can be canceled but services to hurting children and families cannot! The expected net gain for our Spring gala was \$100k, which directly funds our therapeutic programs to help children heal from trauma by strengthening their families.

Please give today! Every little bit helps!

Our hearts & prayers go out to all who are adversely impacted by this virus.

With sincere gratitude,

Jenni Lord
CEO
