

Apart from wartimes, we are living in the most fatherless generation of all time.. in fact, I coined it "pandemic" on December 31, 2019. That day, I believe that God compelled me to write about 2020 being the **Decade of Family**. I think we all agree that 2020 is not measuring up to what anyone expected or dreamed.

However, is there *A Greater Story* being written? I believe so.

This week, I had the immense privilege of **interviewing** Sam Collier on his new book, **A Greater Story**. As an adult adoptee, he has a mess to miracle story that you don't want to miss. Sam's larger message is that when we connect our story to God's story, it produces *a greater story*. His dynamic tenor is so hope-filled in this time of pain, uncertainty and apprehension.

Please listen in as we cover adoption, reunification, and race issues. Share widely and run to pre-order the **book**

before the release on August 4.
(Fabulous exclusive gifts with pre-orders!)

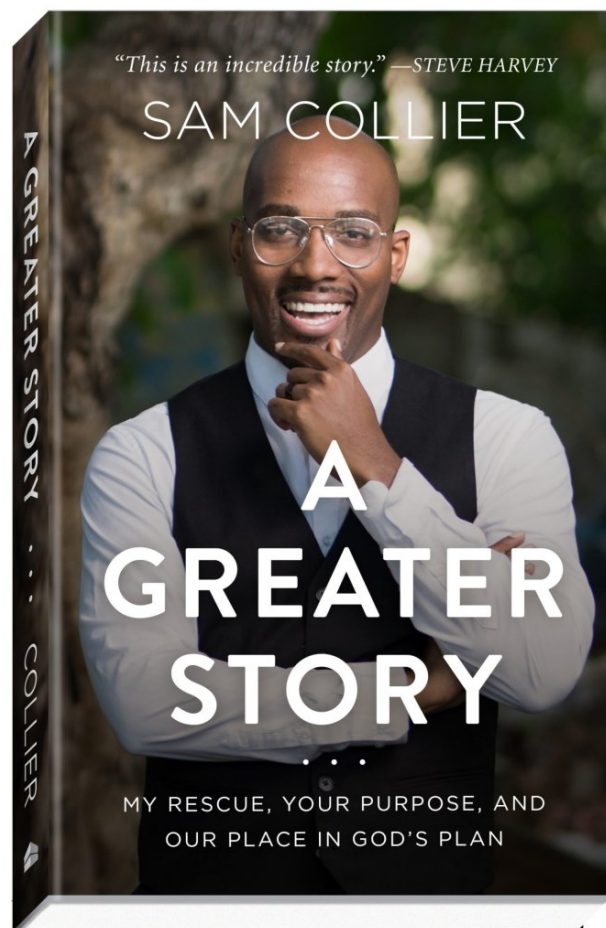

Every day, family restoration is our core focus. A partner recently said we do the “heart work.” That’s exactly it. Healing the heart.

Your partnership and gift for hurting children has never been more appreciated. Covid has brought a 72% increase of individuals served this year. The trials our families are facing are significant, but we are working on *their* greater stories, too. Will you give today to help our most vulnerable?

In hope,

Jenni Lord
CEO
